### Video documentary for the Macmillan Brick Lane Takeover.

#### **LON – May 27<sup>th</sup> 2010**

Today at our London office the Managing Director of Couture Hair Therapy, Kewcha Ambrose took part in a video documentary for the Macmillan Brick Lane Takeover which takes place on Thursday 17<sup>th</sup> June 2010.

Kewcha was asked various questions about the structure of CHT, her own experience with cancer and the reasons as to why she had decided to develop CHT.

Kewcha says:

*"The interview was a great experience and I was pleasantly pleased to be asked by Macmillan to once again take part in an event".*

*"The Brick Lane Takeover sounds like it is going to be a really great event that will reach out to not only people who are currently suffering from cancer, survivors and carers but also people who are just interested in music".*

*"It is a good way for Macmillan to inform the masses as to what they actually do and I would recommend that everyone attends".*

*"Again I would like to say congratulation's to Macmillan for their work in supporting the cancer issue".*

The documentary will be shown at various venues throughout the event and will be of young people who have been affected by cancer and have now made a difference to others.

Building on the phenomenal success of last year the event will host a number of acts such as Eliza Doolittle, Kill It Kid, Three Trapped Tigers, Cosmo Jarvis and Beatbullyz.
